

### ***Bronx Ongoing Pediatric Screening in the Medical Home***

**Christopher Kus, MD, MPH**

Associate Medical Director

New York State Department of Health

Dr. Kus is Associate Medical Director of the Division of Family Health within the New York State Department of Health. He provides leadership for New York State child and adolescent health activities. Dr. Kus has done child development and public health work in New Hampshire and Vermont before coming to New York in 1993. He is a board-certified pediatrician and a fellow of the American Academy of Pediatrics. Dr. Kus is a Past-President of the Association of Maternal and Child Health Programs (AMCHP). He has been involved in quality improvement work related to development screening and newborn hearing screening. Dr. Kus represents the Association of State and Territorial Health Officials on the Secretary's Advisory Committee on Heritable Disorders and Genetic Diseases in Newborns and Children (SACHDNC).

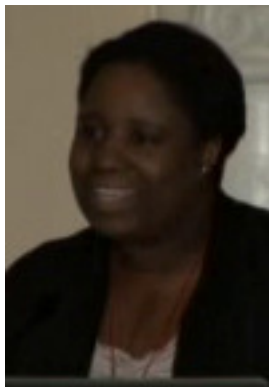

**Andrew Racine, MD, PhD**

Chief, Division of General Pediatrics

Professor of Clinical Pediatrics

Albert Einstein College of Medicine

Dr. Racine is the Chief of General Pediatrics at the Albert Einstein College of Medicine / Children's Hospital at Montefiore. He has direct experience delivering primary care pediatric services to a large population of urban underserved, ethnically diverse children and adolescents. He is a current member on the American Academy of Pediatrics national committee on Child Health Financing. He is the Primary Investigator on the BOPS in the Medical Home Project. He has specific research experience regarding quality improvement in pediatric health care.

**Deborah York, MPH**

Project Director

BOPS in the Medical Home

Albert Einstein College of Medicine

Deborah York, MPH is the Project Director for BOPS (Bronx Ongoing Pediatric Screening) in the Medical Home, a pediatric screening quality improvement initiative. As the Project Director, Ms. York oversees the learning collaborative component of BOPS and other daily activities associated with the initiative. Ms. York brings extensive pediatric health care related project management experience and skillset to her coordination of

BOPS activities. Her day to day oversight of BOPS will allow her to share insights learned in the course of the project's daily progress.
